

ANDRE ADYATMOKO

JUNIOR WEB DEVELOPER || CUSTOMER SERVICE EXPERIENCE

085877516230 | SEMARANG, INDONESIA | ANDREADYATMOKO@GMAIL.COM

About me

Hi there!

I'm a web developer with a passion for learning. While I'm new to the development field, I've spent 2 years in customer service, honing my communication and leadership skills.

I'm interested in database management, performance optimization, and system security. I'm ready to learn and contribute to teams with a positive attitude and strong determination. Thanks for the opportunity.

Abilities

Proficient in JavaScript, both Frontend and Backend development. Experienced with npm, Express.js, and React or Next.js. Skilled in integrating MySQL databases and creating UIs from Figma designs. Strong in error handling, debugging, and using Git for version control. Capable of writing clear documentation for code and APIs

I have 2 years of experience in customer service, where I honed my communication and problem-solving skills. I am adept at handling customer inquiries, resolving issues efficiently, and ensuring customer satisfaction. My experience has taught me the importance of empathy and patience in addressing customer needs. Additionally, I am skilled in multitasking and working effectively in a fast-paced environment.

Experience

SHOFTIME TECH

Freelance Fullstack Web Developer – Based on Project | February 2024 - Present

1. Project: Wedding Organizer Website

- **Description:** Developed a comprehensive web application for a wedding organizer company, designed to streamline the planning and management of weddings. The app includes features for event scheduling, vendor coordination, and guest management, providing an all-in-one solution for both clients and organizers.
- **Key Contributions:**
 1. Developed and implemented RESTful APIs to support the app's functionalities.
 2. Designed and structured MySQL database tables to ensure efficient data retrieval and creation processes.
 3. Built a responsive and user-friendly UI, ensuring a seamless experience across devices.
- **Project link:** rabiberes.com

2. Project: Logo (E-commerce Website)

- **Description:** Built an e-commerce website named "Logo," designed to offer a seamless online shopping experience. The platform supports a variety of product listings, user authentication.
- **Key Contributions:**
 1. Developed the backend APIs to manage products, orders, and user authentication.
 2. Integrated a MySQL database to handle product inventory, user data, and transactions.
 3. Designed and implemented a clean, intuitive UI to enhance the user shopping experience.
